

Operator Safety Training

Alamo Group Operator Safety Training is where operational excellence meets safety awareness. Our comprehensive 7-hour on-site classes, available in the United States and Canada, are designed to equip operators of all levels with essential safety skills and knowledge.

During training, participants engage in classroom instruction and hands-on field exercises focusing on:

- *Promoting Responsible Operator Behavior*
- *Enhancing Hazard Identification & Awareness*
- *Emphasizing the Importance of PPE*
- *Conducting Thorough Pre-Operation Safety Inspections*
- *Implementing Operation Safety Protocols*
- *Ensuring Proper Safety Shutdown Procedures*
- *Emphasizing Maintenance Safety*
