

Operator Safety Training

Experience PMOST, Alamo Group Prime Mover Operator Safety Training for The Mantis

PMOST is Alamo Group's specialized training for supervisors, operators, and dealers using the Mantis Prime Mover. This program ensures the safe and efficient operation of the Mantis across various tasks. With a focus on hands-on learning and best practices, PMOST equips operators with the skills needed to navigate challenging environments safely. This 7-hour, in-person course blends classroom instruction with practical training to promote responsible operator behavior, enhance hazard awareness, and reinforce crucial safety procedures.

Alamo Group Mantis Prime Mover: Safety, Power, and Versatility in One.

Why Choose PMOST?

The Mantis Prime Mover was engineered to use the newest technology to tackle a wide range of vegetation management needs. It's designed for safety, efficiency, and versatility, serving as a dedicated tool carrier capable of handling various attachments for mowing, brush clearing, and roadside maintenance. PMOST training empowers operators to reduce accidents, build confidence, and maximize the safe, efficient use of their equipment, keeping you productive and safe on the job.
